## Summary

I am a recent LLB Honors graduate from Middlesex University Dubai. My time at university allowed me to develop thorough research skills in a variety of legal and political subjects, and the ability to effectively analyze, consolidate, and produce information collected from such research. Through participation in university events and volunteering at Pirates Surf Rescue Dubai, I acquired experience working in team environments, cooperating with others to effectively achieve goals and overcome collective obstacles. Now residing in North Carolina, my goal is to pursue internship and employment opportunities to build and refine my existing experience in a working environment.

## Education
